

PANNA FOOTBALL COURTS_

Curated from experience,
pre-designed and costed
for project efficiency.

Futsal is the fastest growing minor sport in NZ.
Panna Football is the smaller, faster version of Futsal.

Fast paced, quick decisions, movement and teamwork make a Panna Arena a perfect community asset.

PANNA ARENAS_

Pannas Arenas can be any size to suit available budget and/or space. Parklife have pre-designed three Panna Arenas with the player and public space environment in mind.

Construction

Panna Arenas are constructed by either re-purposing an existing paved surface, new asphalt, or a reinforced concrete slab.

Modular Panels

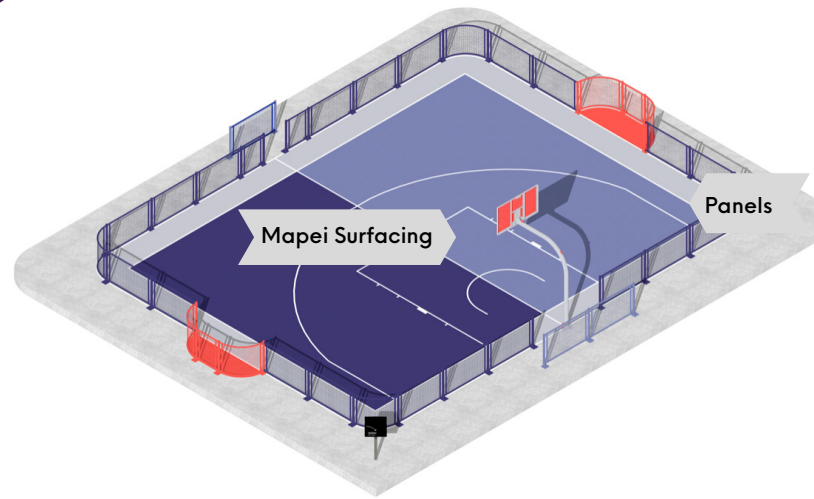

Parklife's Modular Panel System consists of 4no. 1.2m high panel types fabricated from mild steel, protected with a zinc plating process then powdercoated in a range of colours to suit.

The panels are designed and manufactured in New Zealand by Parklife and are 100% recyclable.

Sports Coating

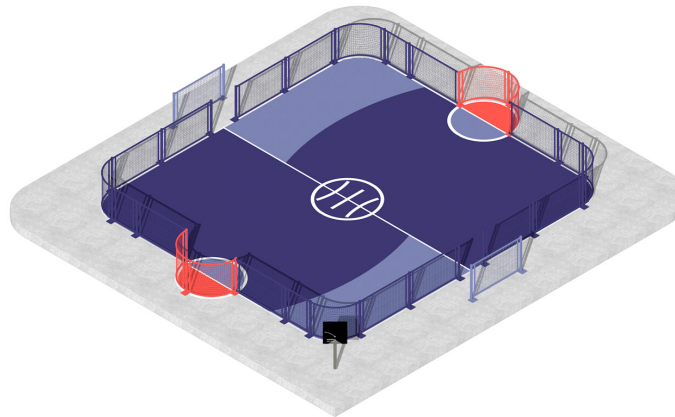

The 3-layered coating system is fit for purpose, designed by Mapei with a 10 year warranty. It forms a hard wearing layer that extends the life of the asphalt or concrete and provides the opportunity for colour customise based on designer or community input.

Parklife is a Mapei Approved Applicator.

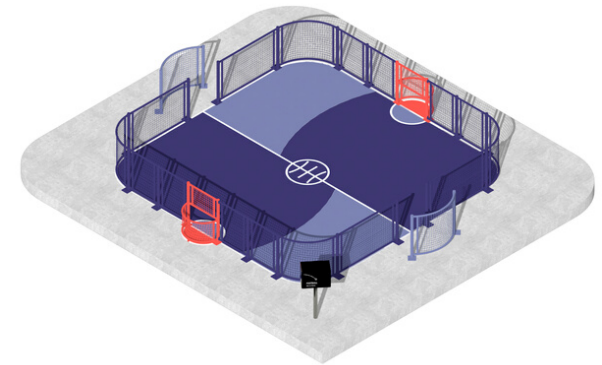

LARGE PANNA

13 x 17m

INTERMEDIATE PANNA

10 x 11m

SMALL PANNA

7 x 7m

HUBBSTER BOX_

The Hubbster Box is a rugged box that gives access via a smart phone and app. to high quality objects.

Hubbster Elements

2 premium Footballs.

The Hubbster has 6 patented technologies integrated into the box to allow tracking and usage. The app. takes users credit card as collateral. Think Lime Scooter.

The Hubbster connects people via the app. to meet up with others in the area that are keen to play.

The Hubbster app. gathers usage data to inform decision making and provides the option to monetise usage.

How it works?
