

PING PONG PARKLET_

Curated from experience,
pre-designed and costed
for project efficiency.

Playfulness is associated with childhood and immaturity, yet studies affirm that it is an essential ingredient for a long and healthy life.

Play in public space creates activity, street life and energy that builds vibrant communities.

PING PONG HUB_

The Ping Pong Hub is a colourful, playful space to draw people in for games, social connection and fun.

All tables are made in New Zealand, are built tough for public space, meet New Zealand standards and are 100% recyclable.

Parklife Ping Pong Table

The Parklife Ping Pong Table allows for creativity by selecting the colour of the table top and net or by applying an artwork on the table top.

Round Table

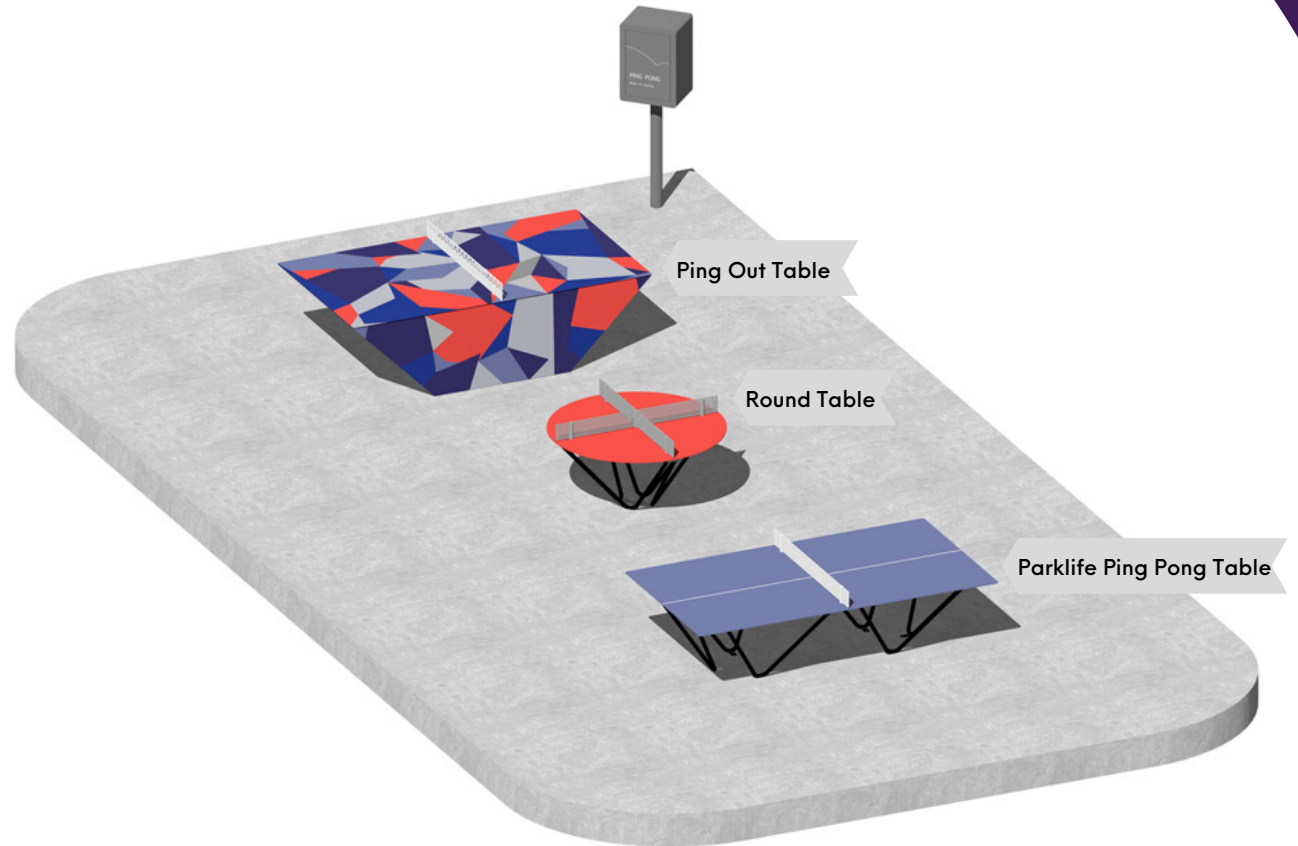

The Round Table is a fun option that can be played by 4 people or 2 people rotating around the table.

Ping Out Table - 'The Original'

The Ping Out table brings both Ping Pong and Art into cities and towns.

The table is a canvas that can be used to engage with local creatives or we can provide design options.

This table is designed by Troels Øder Hansen from Denmark and is licensed for manufacture by Parklife in New Zealand.
