

## Case Study

# Shelly Beach Reserve

**Location** Kaipara Harbour

**Client** Auckland Council

**Contact** Kara Burn

**Cost** \$37,000

<b>Scope</b>	Heavy Grind	Membrane Primer
	Grip Grind	Colour Coats
	Densify and Pressure Wash	Linemarking

## Benefits

### Improved and increased use

A smooth yet grippy surface creates a quality and safer playing experience and allows for other uses (wheeled activities).

### Improved aesthetics

Active spaces that are visually appealing increase participation with a positive impact on community wellbeing.

### Improved Durability

The grind and densify process strengthens the concrete and increases its lifespan.
