

## Summer Projects

As the sun sets on summer we extend our thanks to all the project clients, iwi, stakeholders, designers and artists.

We worked with each project team to transform grey paving into colourful spaces for exercise, play and to hang out.

Our high-quality solutions are designed for the real world. From spilled drinks and scooter stunts to sun, rain, and constant use, our surfaces can handle it. They look great, but also improve grip and extend the life of your public space, maximizing your investment.

Silo Park, Auckland Waterfront

## Empowering Community Art

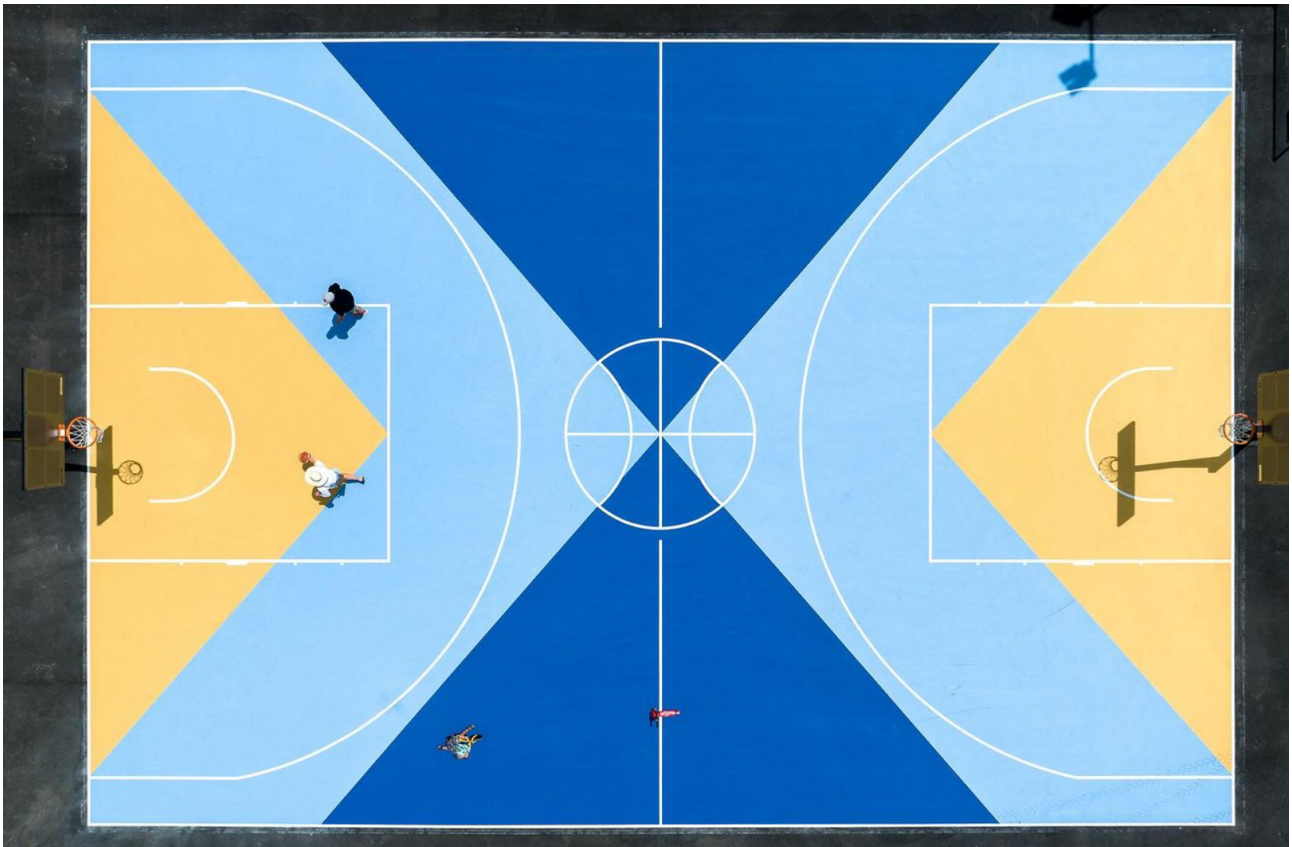

Imagine a space that sparks pride, encourages play and reflects the soul of your community.

You can bring this vision to life with us. We are an established leader in Art Courts in Aotearoa and internationally.

The design or artwork can be provided by the client, community, local iwi, designer, artist or by us.

It's a privilege to bring to life all the designs, particularly those that acknowledge, celebrate, and embed Māori identity in the urban environment.

The works are applied using speciality applications and techniques backed up with product and workmanship warranties. Our artistry meets technology approach guarantees a successful application of your desired artwork.

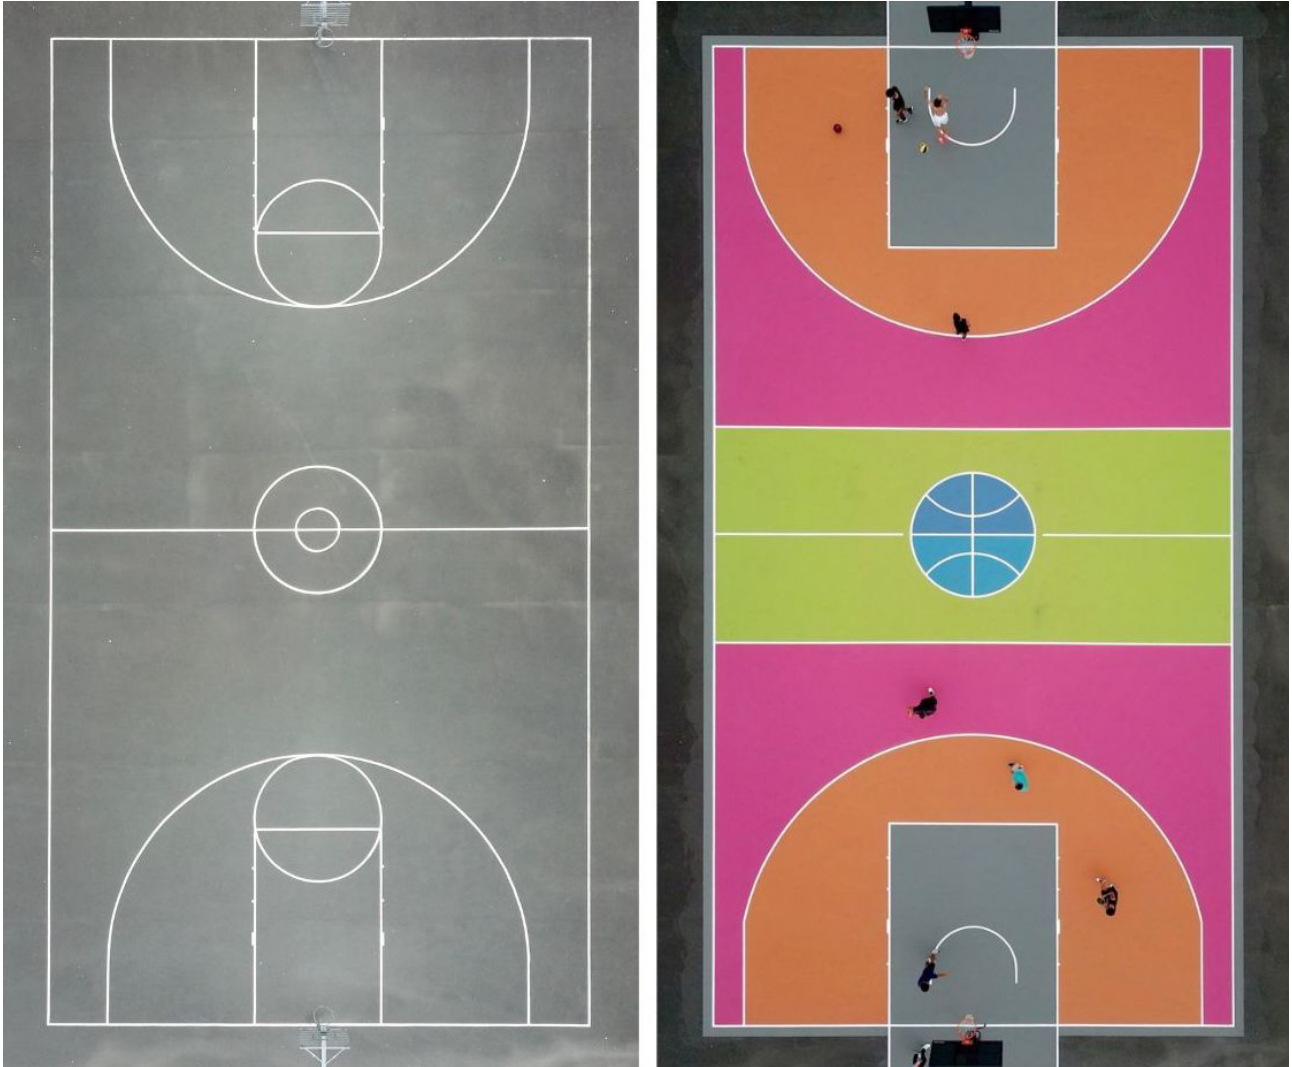

Fergusson Domain, Auckland

“Most beautiful courts in the industry.”

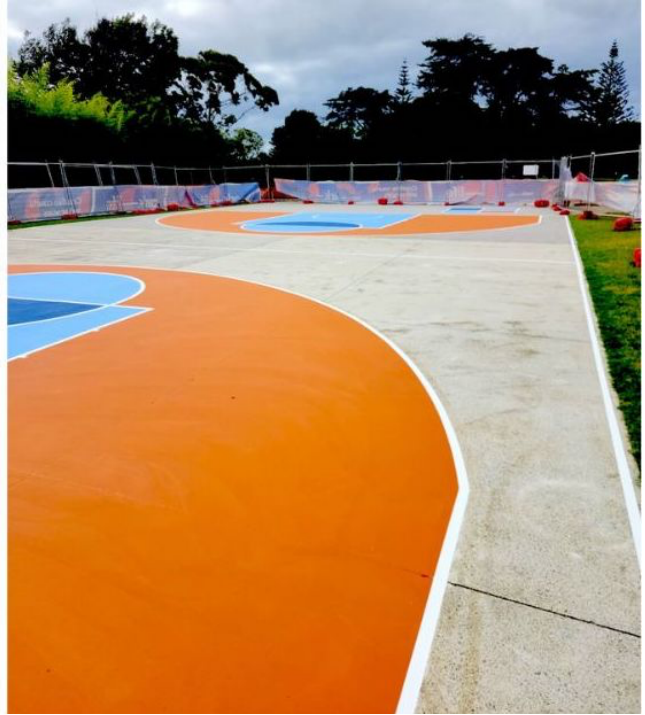

**Concrete Chronicles**

## Revitalise your Underused Court

If you have an existing under-loved and utilised court, we have a Court Refurb process that produces great, cost-effective outcomes.
